

# Carbon Table

**Material**  
steel, inox,  
carbon plate

**Colours**

**Plate**

Zieta Prozessdesign teamed up with Compositence and brings together two innovative technologies FIDU and Composite Process to create the table: NOGI + CARBON TABLE TOP. Compositence manufactured a dedicated and unique carbon table top for

NOGI table construction. We and Compositence decided to co-operate in order to create not only one-of-a-kind products but especially ultra-light and durable constructions.

Raw lacquer steel version products are designed to have an industrial look so they can have few scratches or rust stains on a surface underneath the lacquer.
