

3+
For architects

“For architects” is Zieta’s division for companies seeking new, custom-made solutions to manage the space. Retail, office and public spaces can be arranged with 3+ system by using standard products or by creating new pieces. 3+ “For architects” is a set of new solutions for diverse companies looking for unique products and appreciating premium quality design.

Abstract point of view on 3+ elements allowed us to create various exhibition displays. 3+ provides a lot of solutions based on customer's needs.

3+ is a perfect façade system, which is why we cooperate with architects in order to design building's front panels and surroundings.

Few elements, many solutions.

Exhibition display .

Customised powder
coating for con-
tract business

Wood

Only for bars and legs:

3+ is a collection of furniture made in our technology of sheet metal forming. Using advantage of holes and technical characteristics allowed to create three kinds of furniture that are an onset to further development of 3+ system. Standard set of furniture can be rearranged and expanded in order to create remarkable solutions for offices, houses and public venues.

Entire basic collection is made of high quality aluminum. In addition to light material, we created a technology of ultra light metal sheets where stability is as important as weight. The collection is mobile, easy to assemble, allowing to add any 3+ accessories.

Designed and manufactured in the EU.
